

Double Sided Transfer Tape

Description

Naikos double sided transfer tape consisting of a transparent acrylic adhesive, coated with a release liner. It is a popular choice for graphic attachment and general industrial joining applications. It provides outstanding adhesion to metal and high surface energy plastics. This adhesive provides some initial repositionability for placement accuracy when bonding to plastics.

Construction

Features

- * Excellent solvent resistance
- * Excellent for high surface energy surfaces
- * Excellent shear strength to resist slippage and edge lifting

Application

* Excellent for bonding graphic nameplates, membrane switch applications, attaching metal nameplates and rating plates, industrial applications, and more.

Properties

Item	Double Sided Transfer Tape
Color	Clear
Carrier	Without
Adhesive	Acrylic Adhesive
Total Thickness	0.03~0.25 mm
Adhesion to Stainless Steel	≥18 N/25mm
Holding Power	≥24 Hr
Temperature Resistance	80~120 °C
Width	2~1240 mm(Customized Width Available)
Length	50/100/500/1000 m(Customized Length Available)
